About Course

Professional credentials assure customers, organizations leadership and business associations, that they are working with people who are knowledgeable and possess current competencies in their respective industries. Participants will receive a "stamp of excellence" which represents their ability, aptitude and distinction among their peers.

The Certified Public Procurement Specialist Program was designed to transform participants into subject matter experts in the field of public procurement by further developing the core knowledge, skills, and abilities that public procurement professionals require. Our goal is to use knowledge management and global best practices to give industry leaders, managers and government officials who are responsible for the procurement process, the confidence to direct teams to achieve the organizations' business goals through use of key procurement concepts, principles and policies to which contracting authorities are expected to adhere.

Benefits for Participants

- Opportunity to receive valuable training in a quality learning environment
- Develop lifelong learning habits and a wide range of skills making them more marketable
- Obtain recognition for their achievements, talent, and hard work
- Provides a building block for those who wish to advance their education and professional development

Benefits for Employers

- Helps to build a more talented staff
- Aids in employee motivation and creating a positive and professional workplace
- Helps to identify those employees that want to succeed and aids in successful planning

Course Requirements

Minimum 3 years experience in procurement, contracting, or public administration / Proficiency in English / Access to computer with internet / Understanding of basic procurement principles / Commitment to complete all assignments and final examination

Course Material

Public Procurement Handbook / E-Procurement Systems Guide / Contract Design Templates / Compliance Monitoring Toolkit / Case Study Workbooks / Digital Learning Portal Access / Strategic Action Plan Framework / Anti-Corruption Guidelines

Target Audience

Directors and Senior Level Managers in Public Management / Managers of Regulatory Agencies and Commissions / Executives and Policy makers from public and private enterprises / Directors and Managers of Training and Development in Public Procurement / Directors and Managers of Strategic Planning and Contract Management / Industry Leaders in Telecommunications, Finance, Banking, Utility firms, Consumer Groups and Government / Procurement Officers and Contract Managers / Public Sector Administration Leaders

Course Objective

The objective of this course is to enable public procurement professionals to effectively understand and overcome governance issues, manage ethical issues and anticipate disruptive changes while working towards the creation of transformational change in order to influence the future of the organizations, companies, and communities in today's public procurement environments. It focuses on seven public procurement best practices which offer a proven methodology that enables effective public procurement management.

What Will You Learn?

- Master public procurement systems including policy, regulations, and operational functions
- Implement e-procurement systems, standards, policies, and legal techniques
- Design, manage, implement, and ensure compliance with procurement contracts
- Apply corporate governance standards and prevent corruption in procurement processes

- Develop and execute comprehensive public procurement strategic action plans
- Manage contract disputes, performance failures, and public-private partnerships

Certification

Participants who successfully complete all course modules, case studies, strategic action plan, and comprehensive essay examination will receive the Certified Public Procurement Specialist (CPPS) certification. This credential represents a "stamp of excellence" demonstrating advanced competency in public procurement management and strategic planning.
