## **THEME:** Transferring America's TVET Innovative Strategies

The Workshop/Conference is an international event to transfer the United States of America's innovative techniques, tools and approaches to administering and teaching TVET in a changing world of work. As the workplace evolves to incorporate new technologies and changes the way in which people interact with them, so does the need to administer and educate our learners to be successful in this new world of work.

### About the Workshop

This workshop helps you to understand why technical and vocational education is credited with American successful economy. It provides template on how to develop your workforce for job creation. Guided by experienced workshop leaders and working with a group of individuals in similar situations, develop your own professional development plan for implementation. Enhance your ability to deliver results that positively impact all constituents' school experience. In cooperation with Texas Southern University College of Continuing Education, Americas Empowerment Institute deliberately designs a wide-ranging focus in our program to provide choices and variety that will appeal to our very mixed audience. We also plan a participant-only track within the program to offer opportunities for participants to work with other participants on issues of special interest to them. We hope

you will join us for a rich and substantive workshop in gorgeous Pacific Ghana.

## STRANDS:

- Why we are here and where TVET is going
- How's TVET prospering the United States
